

CDT-A

Card Dimension Test Tool

Application

This control tool allows to test the size (height and width) of non-embossed or embossed ID-1 card against the "card dimensions and tolerances" requirements as defined in the ISO/IEC 7810 norm for "Unused card" CDT-A2 and "Returned Card" CDT-A1.

It addresses manufacturers needs for:

- Quality control / production control for non-embossed and embossed cards.
- Audit and certification for a personalization center.

Key Benefits

- Easy go/no-go control of the external dimensions of the card against the MIN and MAX values (two different footprints).
