

CST-A

Card Corner Stencil Test Tool

Application

The CST-A Corner Stencil control Tool is designed to comply with ISO/IEC 7810 ID-1 card physical characteristics requirements and the latest MasterCard CQM requirements (R-BG-02 test method for example).

It can be used for:

- Quality control / production control.
- Audit and certification.
- Process control and setup in hot-stamping and punching.

Key benefits

- Quick go/no-go tool for card corner radius inspection.
- Quick visual inspection of graphical and functional elements such as holograms, signature panels, magnetic stripe and logo.
- Supplied with default template for corner radius, but designed to accept additional templates.
