

CWT-A

Overall Card Warpage Test Tool

Access

Evolution

Productivity

Application

This tool is designed to test the warpage of the card after personalization. It complies with ISO/IEC 7810 & 7811-1 norms.

- Quality control / Production control.
- Support to CQM certification and audit.

Key benefits

- Easy go/no-go quick control of the overall card warpage with a unique ramp and two pre-defined gaps: 1.5mm and 1.3mm for un-embossed cards, 2.5mm and 2.3mm for embossed cards (select the model with the type of card).

Technical characteristics

Model versions

CWT-A1 for non embossed card
CWT-A2 for embossed card

Material

Aircraft grade 6061 aluminum /steel alloy bar stock and electro-statically coated for a durable long-lasting finish

Dimensions

W x D x H: 140 x 70 x 215 mm

Weight

2.4 kg

Associated products

Other MULANN products are nicely complementary:

- BWT-A or WTT-A control tools for bending stiffness and wrapping test
- TPT-A for tape pull test
- CDT-A and CDT-E for card dimensional tests
